The IR660 is a WDR Long Range Infrared Security Camera with a 6-60mm Telephoto Lens. The IR660 can illuminate an area as far away as 150 feet. At the heart of the IR660 is a High-Resolution SONY 1/3" Super HAD II Camera with 580 Lines of Resolution. Many of the functions of the camera can be tailored to fit your situation; such as bright light masking, back-light compensation and many other options. The IR660 can also be used effectively as a License Plate Capture Camera and many of our customers are using it for that purpose.
